

Summer Workshops Cancelled

Due to the situation with COVID-19 we are cancelling all our large workshops for the rest of the summer. This has been a hard decision but we consider it is better to be safe than sorry and the health of our participant landowners and volunteers is paramount. We apologise for disappointing those who had signed up to help.

We will continue to work with our landowners in small groups where it is safe to do so.

If you want to check in with us directly you can email Mels on mels@kaurirescue.org.nz

Thanks to everyone who has supported our citizen science project as a volunteer Ambassador this year, we have been overwhelmed by the response. With your help since November we have run 12 monitoring workshops and 9 treatment workshops. We have a lot of research data to process over the winter as a result!

We look forward to working with you all again next summer. Stay safe everyone.

The Kauri Rescue Team
